

Index to Volume 26, July–December 1995

INDEX TO SUBJECTS

A

Abdominal injuries

Penetrating abdominal air gun injuries: pitfalls in recognition and management (DiGiulio et al). 1995;26:224-8 (Case rep.)

Abdominal pain

Comparison of ambulance dispatch protocols for nontraumatic abdominal pain (Lammers et al). 1995;26:579-89

Delayed presentation of uterine perforation (Leibner). 1995;26:643-6 (Case rep.)

Abortion

Delayed presentation of uterine perforation (Leibner). 1995;26:643-6 (Case rep.)

Abstracts

Abstracts. 1995;26:110-4, 245-9, 395-9, 533-7, 662-7, 712-7, 764-7

Acetaminophen

Covalent binding of acetaminophen to nuclear proteins and the ensuing hepatotoxicity (Hong et al). 1995;26:716-7 (1994 Toxicology World Congress abstract)

The temporal profile of increased transaminase levels in patients with acetaminophen-induced liver dysfunction (Singer et al). 1995;26:49-53

Acidosis

Analysis of the temporal development of acidosis in uncomplicated methanol poisoning (McGuigan). 1995;26:725 (1994 Toxicology World Congress abstract)

Activated charcoal; see Charcoal

Acute myocardial infarction; see Myocardial infarction

Adenocard

Anticonvulsant effects of intracerebroventricular Adenocard in theophylline-induced seizures (Shannon and Maher). 1995;26:65-8 (Brief rep.)

Adenosine

Anticonvulsant effects of intracerebroventricular adenosine in theophylline-induced seizures (Shannon and Maher). 1995;26:723-4 (1994 Toxicology World Congress abstract)

Effect of adenosine on the management of supraventricular tachycardia by urban paramedics (Lozano et al). 1995;26:691-6

Adhesives

Comparison of tensile strength of cyanoacrylate tissue adhesive closure of lacerations versus suture closure (Bresnahan et al). 1995;26:575-8 (Brief rep.)

Administration, intramuscular

Intramuscular ketorolac versus oral ibuprofen in acute musculoskeletal pain (Turturro et al). 1995;26:117-20

Randomized double-blind comparison of the analgesic efficacy of intramuscular ketorolac and oral indomethacin in the treatment of acute gouty arthritis (Shrestha et al). 1995;26:682-6

Administration, nasal

Treatment of acute bronchospasm with β -adrenergic agonist aerosols delivered by a nasal bilevel positive airway pressure circuit (Pollack et al). 1995;26:552-7

Admission to hospital; see Hospital admission

Adolescence

Alcohol-related injuries among adolescents in the emergency department (Meropol et al). 1995;26:180-6

Management and clinical outcome of metallic mercury injection among Filipino adolescents (Makalinao et al). 1995;26:718 (1994 Toxicology World Congress abstract)

Urinary methamphetamine screening in adolescent Taiwanese students: preliminary results (Tsai et al). 1995;26:715 (1994 Toxicology World Congress abstract)

Victim as offender in youth violence (Rivara et al). 1995;26:609-14

Adrenal cortex hormones

Corticosteroids precipitating hypocalcemia encephalopathy in hypoparathyroidism (Handa et al). 1995;26:241-2 (Letter)

Factors associated with relapse after emergency department treatment for acute asthma (Emmerman and Cydulka). 1995;26:6-11

Adrenergic beta receptor blockers

Comparative trial of continuous nebulization versus metered-dose inhaler in the treatment of acute bronchospasm (Levitt et al). 1995;26:273-7

Treatment of acute bronchospasm with β -adrenergic agonist aerosols delivered by a nasal bilevel positive airway pressure circuit (Pollack et al). 1995;26:552-7

Advanced life support; see Life support care

Age factors

Hospital admission and age (Henneman et al). 1995;26:393 (Letter)

Aged

Fever in geriatric emergency patients: clinical features associated with serious illness (Marco et al). 1995;26:18-24

Agricultural health

Poison control centers and agricultural health: a natural union (Carlton et al). 1995;26:719-20 (1994 Toxicology World Congress abstract)

Air gun wounds; see Wounds, gunshot

Albuterol

Comparative trial of continuous nebulization versus metered-dose inhaler in the treatment of acute bronchospasm (Levitt et al). 1995;26:273-7

Alcohol

Alcohol and injury in the emergency department: opportunities for intervention (Maio). 1995;26:221-3 (Editorial)

Alcohol-related injuries among adolescents in the emergency department (Meropol et al). 1995;26:180-6

Alcohol use before and after traumatic head injury (Dikmen et al). 1995;26:167-76

Diagnostic value of carbohydrate-deficient transferrin in the identification of patients with drug overdose at risk for alcohol-withdrawal syndrome (Koppel et al). 1995;26:723 (1994 Toxicology World Congress abstract)

Emergency intervention to break the cycle of drunken driving and recurrent injury (Madden and Cole). 1995;26:177-9 (Concepts)

Influence of chronic alcohol abuse on selenium status in ICU patients (Koppeyl et al). 1995;26:723 (1994 Toxicology World Congress abstract)

Is "alcohol-free" beer a placebo? (Roeggla et al) (Letter); (Tomaszewski and Cline) (Reply). 1995;26:762-3

Screening for alcohol problems in the emergency department (Cheripitel). 1995;26:158-66 (Concepts)

Alcohol, ethyl

Methanol half-life during ethanol administration: implications for management of methanol poisoning (Palatnick et al). 1995;26:202-7

Alcohol, methyl

Analysis of the temporal development of acidosis in uncomplicated methanol poisoning (McGuigan). 1995;26:725 (1994 Toxicology World Congress abstract)

Methanol half-life during ethanol administration: implications for management of methanol poisoning (Palatnick et al). 1995;26:202-7

Serum methanol in the absence of methanol ingestion (Tintinalli). 1995;26:393 (Letter)

Ambulances

Comparison of ambulance dispatch protocols for nontraumatic abdominal pain (Lammers et al). 1995;26:579-89

Equipment for ambulances (American College of Emergency Physicians). 1995;26:403 (Policy statement)

American Board of Emergency Medicine

Can we learn from history and unite as emergency physicians? (Bullock). 1995;26:758-60 (Letter)

American College of Emergency Physicians

Equipment for ambulances (American College of Emergency Physicians). 1995;26:403 (Policy statement)
Immunization of the pediatric patient (American College of Emergency Physicians). 1995;26:403-4 (Policy statement)
Proposed amendments to the American College of Emergency Physicians Bylaws. 1995;26:252-72
Research fellowship program evaluation (American College of Emergency Physicians). 1995;26:733-4 (Concepts)

Amtripyline

Does a sodium-free buffer affect QRS width in experimental amtripyline overdose? (Stone et al). 1995;26:58-64

Analgnesia

Gender-associated differences in emergency department pain management (Raftery et al). 1995;26:414-21
Randomized double-blind comparison of the analgesic efficacy of intramuscular ketorolac and oral indomethacin in the treatment of acute gouty arthritis (Shrestha et al). 1995;26:682-6
Randomized double-blind controlled trial comparing room-temperature and heated lidocaine for digital nerve block (Waldhill et al). 1995;26:677-81

Anaphylaxis

Anaphylaxis and leather protectors (McHugh). 1995;26:756 (Letter)

Anesthesia

Comparison of plain, warmed, and buffered lidocaine for anesthesia of traumatic wounds (Brogan et al). 1995;26:121-5

Ankle, injuries

Cost-effectiveness analysis of the Ottawa Ankle Rules (Anis et al). 1995;26:422-8
Sensitivity of the Ottawa rules (Lucchesi et al). 1995;26:1-5

Anorexia

Identification and assay of clobenzorex and diazepam adulterated in anorexiant traditional Chinese medicine by micellar electrokinetic capillary chromatography (Ku et al). 1995;26:713 (1994 Toxicology World Congress abstract)

Antacids

Using the "GI cocktail": a descriptive study (Wrenn et al). 1995;26:687-90 (Brief rep.)

Antibiotics

Reduction of desipramine cardiotoxicity and prolongation of survival in rats with the use of polyclonal drug-specific antibody Fab fragments (Pentel et al). 1995;26:334-40

Anticholinergics

Using the "GI cocktail": a descriptive study (Wrenn et al). 1995;26:687-90 (Brief rep.)

Anticholinesterases

Efficacy of anticholinesterase against paralysis caused by postsynaptic neurotoxic snake venom (Sakai et al). 1995;26:712-3 (1994 Toxicology World Congress abstract)

Anticonvulsants

Anticonvulsant effects of intracerebroventricular Adenocard in theophylline-induced seizures (Shannon and Maher). 1995;26:65-8 (Brief rep.)
Anticonvulsant effects of intracerebroventricular adenosine in theophylline-induced seizures (Shannon and Maher). 1995;26:723-4 (1994 Toxicology World Congress abstract)

Antidepressants, tricyclic

ECG lead aVR versus QRS interval in predicting seizures and arrhythmias in acute tricyclic antidepressant toxicity (Liebelt et al). 1995;26:195-201
Fatal serotonin syndrome with trismus (Kuisma). 1995;26:108 (Letter)

Reduction of desipramine cardiotoxicity and prolongation of survival in rats with the use of polyclonal drug-specific antibody Fab fragments (Pentel et al). 1995;26:334-40

Antihistamines

Dystonic reaction following recommended use of a cold syrup (Joseph and King). 1995;26:749-51 (Case rep.)

Antivenins

Delayed use of widow spider antivenin (Allen and Norris). 1995;26:393-4 (Letter)
Late administration of *Vipera palaestinae* antivenin (Bentur and Taitelman). 1995;26:712 (1994 Toxicology World Congress abstract)

Anria

Chest pain and aortic dissection (Bazarian and Bennett) (Letter); (Smith) (Reply). 1995;26:526-7

Arm

Upper-extremity impairment in young children (Schutzman and Teach). 1995;26:474-9

Armenia

Integration of United States emergency medicine concepts into emergency services in the New Independent States (Aghababian et al). 1995;26:368-75 (Concepts)

Arrhythmia

ECG lead aVR versus QRS interval in predicting seizures and arrhythmias in acute tricyclic antidepressant toxicity (Liebelt et al). 1995;26:195-201

Arteriovenous hemoperfusion; see Hemoperfusion

Arthritis, gouty

Randomized double-blind comparison of the analgesic efficacy of intramuscular ketorolac and oral indomethacin in the treatment of acute gouty arthritis (Shrestha et al). 1995;26:682-6

Asphyxia

Agitated delirium versus positional asphyxia (Karch and Wetli) (Letter); (Stratton) (Reply). 1995;26:760-1

Aspirin

Effect of multiple-dose activated charcoal on the clearance of high-dose intravenous aspirin in a porcine model (Johnson et al). 1995;26:569-74

Asthma

Comparative trial of continuous nebulization versus metered-dose inhaler in the treatment of acute bronchospasm (Levitt et al). 1995;26:273-7
Factors associated with relapse after emergency department treatment for acute asthma (Emmerman and Cydulka). 1995;26:6-11
Is circadian variation in asthma severity relevant in the emergency department? (Karras et al). 1995;26:558-62 (Brief rep.)
Metered-dose inhalers: Do emergency health care providers know what to teach? (Jones et al). 1995;26:308-11 (Brief rep.)
Nebulized dexamethasone versus oral prednisone in the emergency treatment of asthmatic children (Scarfione et al). 1995;26:480-6
No support for intravenous lidocaine airway reflex suppression during rapid sequence intubation (Zemenick). 1995;26:660 (Letter)
Possible bronchial asthma necessitating prolonged mechanical ventilation in a patient with Roundup poisoning (Yang et al). 1995;26:722-3 (1994 Toxicology World Congress abstract)

Prospective, randomized trial of epinephrine, metaprotrenolol, and both in the prehospital treatment of asthma in the adult patient (Quadrel et al). 1995;26:469-73

Treatment of acute bronchospasm with [beta]-adrenergic agonist aerosols delivered by a nasal bilevel positive airway pressure circuit (Pollack et al). 1995;26:552-7

Automatic external defibrillators; see Electric countershock

Avulsion fracture; see Fractures

B

Babesiosis

More on babesiosis and immunodeficiency (Witt) (Letter); (Kurtz et al) (Reply). 1995;26:239-40

Balloon dilatation

Endotracheal tube placement (Capistrano et al). 1995;26:108-9 (Letter)

Basilar skull fracture; see Skull fractures

BB gun wounds; see Wounds, gunshot

Beer

Is "alcohol-free" beer a placebo? (Roeggla et al) (Letter); (Tomaszewski and Cline) (Reply). 1995;26:762-3

Beetles

Cantharidin intoxication: report of a case (Chen and Leung). 1995;26:713 (1994 Toxicology World Congress abstract)

Beta-adrenergic blockers; see Adrenergic beta receptor blockers

Blindness

Transient cortical blindness in an infant exposed to methamphetamine (Gospe). 1995;26:380-2 (Case rep.)

Bone scan

Can a day 4 bone scan accurately determine the presence or absence of scaphoid fracture? (Murphy et al). 1995;26:434-8

Book reviews

Book reviews. 1995;26:115-6, 250-1, 400-2, 538-40, 668-70, 768-71

Brain, blood supply

Cerebral blood flow measurement is not predictive of a delayed neurologic syndrome after carbon monoxide poisoning (Bedry et al). 1995;26:715-6 (1994 Toxicology World Congress abstract)

Brain death

Outcome after organ removal from poisoned, brain-dead donors (Hantson et al). 1995;26:724 (1994 Toxicology World Congress abstract)

Brazil

Illegal use of carbamate as a rodenticide in Rio De Janeiro leads to high incidence of poisoning (Socrates Lima). 1995;26:719 (1994 Toxicology World Congress abstract)

Brief reports

Brief reports. 1995;26:54-7, 65-8, 126-32, 216-9, 296-311, 330-3, 439-46, 558-68, 575-8, 595-7, 687-90, 697-701

Bronchospasm

Comparative trial of continuous nebulization versus metered-dose inhaler in the treatment of acute bronchospasm (Levitt et al). 1995;26:273-7
Is circadian variation in asthma severity relevant in the emergency department? (Karras et al). 1995;26:558-62 (Brief rep.)
Treatment of acute bronchospasm with β -adrenergic agonist aerosols delivered by a nasal bilevel positive airway pressure circuit (Pollack et al). 1995;26:552-7

Bundle-branch block

ECG diagnosis of acute myocardial infarction in the presence of left bundle-branch block in patients undergoing continuous ECG monitoring (Fesmire). 1995;26:69-82 (Concepts)

Ventricular tachycardia may masquerade as supraventricular tachycardia in patients with preexisting bundle-branch block (Littmann and McCall). 1995;26:98-101 (Case rep.)

Burns

Electrical injuries in a pediatric emergency department (Garcia et al). 1995;26:604-8
Formic acid skin burns resulting in systemic toxicity (Chan et al). 1995;26:383-6 (Case rep.)
Lightning injuries revisited (Brigham). 1995;26:528-9 (Letter)
Pavement temperature and burns: streets of fire (Harrington et al). 1995;26:563-8 (Brief rep.)

Butachlor

Taiwan National Poison Center survey on butachlor/machete poisoning (Tai et al). 1995;26:720 (1994 Toxicology World Congress abstract)

Bylaws amendments

Proposed amendments to the American College of Emergency Physicians Bylaws. 1995;26:252-72

C

Canada

Emergency medicine: a Canadian perspective (Beveridge). 1995;26:504-7 (Concepts)

Cantharidin

Cantharidin intoxication: report of a case (Chen and Leung). 1995;26:713 (1994 Toxicology World Congress abstract)

Capnometry

Verification of tracheal tube placement (Maleck and Koetter) (Letter); (Smith) (Reply). 1995;26:527-8

Capsaicin

Relief of capsaicin contact dermatitis (Anderson) (Letter); (Williams and Clark) (Reply). 1995;26:659-60

Carbamate

Illegal use of carbamate as a rodenticide in Rio De Janeiro leads to high incidence of poisoning (Socrates Lima). 1995;26:719 (1994 Toxicology World Congress abstract)

Carbohydrates

Diagnostic value of carbohydrate-deficient transferrin in the identification of patients with drug overdose at risk for alcohol-withdrawal syndrome (Koppel et al). 1995;26:723 (1994 Toxicology World Congress abstract)

Carbon dioxide

Pulse oximetry monitoring: blinded by the light, lulled by the beeps (Nathan and Glauser). 1995;26:661 (Letter)

Carbon monoxide

Cerebral blood flow measurement is not predictive of a delayed neurologic syndrome after carbon monoxide poisoning (Bedry et al). 1995;26:715-6 (1994 Toxicology World Congress abstract)
Hyperbaric oxygen and carbon monoxide poisoning (Weaver et al) (Letter); (Thom et al) (Reply). 1995;26:390-2
Successful heart transplantation from a victim of carbon monoxide poisoning (Roberts et al). 1995;26:652-5 (Case rep.)

Cardiac arrest; see Heart arrest

Cardiac illness; see Coronary disease

Cardiopulmonary resuscitation

Decay in quality of closed-chest compressions over time (Hightower et al). 1995;26:300-3 (Brief rep.)
The need for ventilatory support during bystander CPR (Berg et al). 1995;26:342-50
Three-rescuer CPR: The method of choice for firefighter CPR? (Hackman et al). 1995;26:25-30

Case conference

Case conference. 1995;26:508-14

Case reports

Case reports. 1995;26:85-101, 224-37, 376-89, 515-25, 643-55, 746-54

Cerebral blood flow; see Brain, blood supply

Cerebrovascular disorders

Admission criteria for stroke (Leibman) (Letter); (Pilcher) (Letter); (Henneman and Lewis) (Reply). 1995;26:530-1

Certification

Can we learn from history and unite as emergency physicians? (Bullock). 1995;26:758-60 (Letter)
The Macy Foundation report (Gerard). 1995;26:238-9 (Letter)

Cervical spinal fractures; see Spinal fractures

Change of shift

Change of shift. 1995;26:102-3, 656-7, 755

Charcoal

Effect of multiple-dose activated charcoal on the clearance of high-dose intravenous aspirin in a porcine model (Johnson et al). 1995;26:569-74

Chest pain

Chest pain and aortic dissection (Bazarian and Bennett) (Letter); (Smith) (Reply). 1995;26:526-7
Chest pain associated with cocaine: an assessment of prevalence in suburban and urban emergency departments (Hollander et al). 1995;26:671-6
Chest pain treatment center (Fesmire) (Letter); (Norton) (Letter); (Gibler and Gerlach) (Reply). 1995;26:104-6
Evaluation of a prehospital chest pain protocol (Wuerz and Meador). 1995;26:595-7 (Brief rep.)

Child

Acute accidental lindane ingestion in toddlers (Aks et al). 1995;26:647-51 (Case rep.)
Clonidine for hyperactivity: an unrecognized source of pediatric poisoning (Matynas et al). 1995;26:719 (1994 Toxicology World Congress abstract)
Electrical injuries in a pediatric emergency department (Garcia et al). 1995;26:604-8
Emergency department vaccination of preschool-age children during a measles outbreak (Schlenker et al). 1995;26:320-3
Immunization of the pediatric patient (American College of Emergency Physicians). 1995;26:403-4 (Policy statement)
Kerosene-induced hepatotoxicity in children: a three-year retrospective study at Philippines General Hospital (Garcia et al). 1995;26:718 (1994 Toxicology World Congress abstract)
Near-hanging caused by a toy necklace (Chin and Berns). 1995;26:522-5 (Case rep.)
Nebulized dexamethasone versus oral prednisone in the emergency treatment of asthmatic children (Scarfione et al). 1995;26:480-6
Outbreak of *Escherichia coli* O157:H7 hemorrhagic colitis and hemolytic uremic syndrome: effect on use of a pediatric emergency department (Del Beccaro et al). 1995;26:598-603
Pediatric basilar skull fracture: Do children with normal neurologic findings and no intracranial injury require hospitalization? (Kadish and Schunk). 1995;26:37-41
Pediatric seizures: value of and problems with toxicology screening (Casavant et al). 1995;26:716 (1994 Toxicology World Congress abstract)
Penetrating abdominal air gun injuries: pitfalls in recognition and management (DiGiulio et al). 1995;26:224-8 (Case rep.)
Predicting outcome in pediatric submersion victims (Graf et al). 1995;26:312-9

Recommended guidelines for uniform reporting of pediatric advanced life support: the pediatric Utstein style (Zaritsky et al). 1995;26:487-503

Rollerblades (Engrav). 1995;26:102-3 (Change of shift)
Upper-extremity impairment in young children (Schutzman and Teach). 1995;26:474-9
Ventricular fibrillation in pediatric cardiac arrest (Quan and Mogayzel). 1995;26:658-9 (Letter)

China

Identification and assay of clobenzorex and diazepam adulterated in anorexic traditional Chinese medicine by micellar electrokinetic capillary chromatography (Ku et al). 1995;26:713 (1994 Toxicology World Congress abstract)
Identification of the adulteration in Chinese herbal preparations with chemical drugs and their toxicities (Chen et al). 1995;26:717 (1994 Toxicology World Congress abstract)
Use of Chinese therapies among Chinese patients seeking emergency department care (Pearl et al). 1995;26:735-8 (Concepts)

Chlorpyrifos

Biological monitoring of exposure to chlorpyrifos (Chang et al). 1995;26:722 (1994 Toxicology World Congress abstract)

Chromatography

Identification and assay of clobenzorex and diazepam adulterated in anorexic traditional Chinese medicine by micellar electrokinetic capillary chromatography (Ku et al). 1995;26:713 (1994 Toxicology World Congress abstract)

Circadian rhythm

Is circadian variation in asthma severity relevant in the emergency department? (Karras et al). 1995;26:558-62 (Brief rep.)

Clams

Two food poisoning incidents due to ingestion of the purple clam (Hwang et al). 1995;26:713-4 (1994 Toxicology World Congress abstract)

Clobenzorex

Identification and assay of clobenzorex and diazepam adulterated in anorexic traditional Chinese medicine by micellar electrokinetic capillary chromatography (Ku et al). 1995;26:713 (1994 Toxicology World Congress abstract)

Clonidine

Clonidine for hyperactivity: an unrecognized source of pediatric poisoning (Matynas et al). 1995;26:719 (1994 Toxicology World Congress abstract)

Closed chest compression; see Cardiopulmonary resuscitation

COBRA

Identification and triage of nonemergency patients from the ED (Wood). 1995;26:243 (Letter)

Cocaine

Agitated delirium versus positional asphyxia (Karch and Wetli) (Letter); (Stratton) (Reply). 1995;26:760-1
Chest pain associated with cocaine: an assessment of prevalence in suburban and urban emergency departments (Hollander et al). 1995;26:671-6
Clinical safety of lidocaine in patients with cocaine-associated myocardial infarction (Shih et al). 1995;26:702-6

Colchicine

Reassessment of the prognosis of acute oral colchicine overdose (Baud et al). 1995;26:724-5 (1994 Toxicology World Congress abstract)

Cold medication

Dystonic reaction following recommended use of a cold syrup (Joseph and King). 1995;26:749-51 (Case rep.)

Colitis, ulcerative

Outbreak of *Escherichia coli* O157:H7 hemorrhagic colitis and hemolytic uremic syndrome: effect on use of a pediatric emergency department (Del Beccaro et al). 1995;26:598-603

Collective review

Collective review. 1995;26:635-9

Compartment syndromes

Severe rhabdomyolysis and compartment syndrome in poisoned patients (Russo et al). 1995;26:726 (1994 Toxicology World Congress abstract)

Composition C-4

Seizures caused by ingestion of composition C-4 (Harrell-Bruder and Hutchins). 1995;26:746-8 (Case rep.)

Concepts

Concepts. 1995;26:69-82, 146-66, 177-9, 357-60, 368-75, 504-7, 621-31, 733-42

Constricting bands

Removing constricting bands on the penis (Meadoff). 1995;26:758 (Letter)

Consumer satisfaction

Industry-poison center partnership: the consumer's view of the industry participant (Aupperlee and Mrvos). 1995;26:718-9 (1994 Toxicology World Congress abstract)

Contact dermatitis; see Dermatitis, contact

Cornea

Corneal abrasion during eyelid retraction (Veser and O'Connor). 1995;26:756-8 (Letter)
Subgaleal hematoma with delayed proptosis and corneal ulceration (Pomeranz et al). 1995;26:752-4 (Case rep.)

Coronary disease

Chest pain and aortic dissection (Bazarian and Bennett) (Letter); (Smith) (Reply). 1995;26:526-7
Chest pain treatment center (Fesmire) (Letter); (Norton) (Letter); (Gibler and Gerlach) (Reply). 1995;26:104-6
Effects of prehospital care on outcome in patients with cardiac illness (Shuster et al). 1995;26:138-45
Evaluation of a prehospital chest pain protocol (Wuerz and Meador). 1995;26:595-7 (Brief rep.)

Corrective

Adsorption of botulinum toxin to activated charcoal with a mouse bioassay (Gomez et al) (1995;25:818-22). 1995;26:152

Assessment for medical clearance (Henneman et al) (1995;25:852-3). 1995;26:109

Practicing cricothyrotomy on the newly dead (Knopp) (1995;25:694-5). 1995;26:109

Wound registry: development and validation (Hollander et al) (1995;25:675-85). 1995;26:532

Correspondence

Correspondence. 1995;26:104-9, 238-44, 390-4, 526-32, 658-61, 756-63

Cortical blindness; see Blindness

Corticosteroids; see Adrenal cortex hormones

Cost-effectiveness

Cost-effectiveness analysis of the Ottawa Ankle Rules (Anis et al). 1995;26:422-8
Urgent care clinics (Broome). 1995;26:528 (Letter)

CPR; see Cardiopulmonary resuscitation

Crotalid venoms; see Snake venoms

Cruise ships

Cruise ship medicine (Draper) (Letter); (Wheeler) (Reply). 1995;26:761-2

Cyanide

Cyanide and sodium azide intoxication (Lambert et al). 1995;26:392 (Letter)

Cyanoacrylates

Comparison of tensile strength of cyanoacrylate tissue adhesive closure of lacerations versus suture closure (Bresnahan et al). 1995;26:575-8 (Brief rep.)

Cycloleucine

Reversal by valine of intramyelinic vacuolation and motor axonopathy produced by cycloleucine (Lee and Duchon). 1995;26:728-7 (1994 Toxicology World Congress abstract)

D

Death

The last ray of light (Ciccone). 1995;26:755 (Change of shift)

Using epidemiologic methods to evaluate out-of-hospital care: the ecologic study (Maio and Spaite). 1995;26:153-7 (Concepts)

Respiration

Recovery of respiratory function in survivors with paraquat intoxication (Lee et al). 1995;26:721-2 (1994 Toxicology World Congress abstract)

Respiration, artificial

Possible bronchial asthma necessitating prolonged mechanical ventilation in a patient with Roundup poisoning (Yang et al). 1995;26:722-3 (1994 Toxicology World Congress abstract)

Respiration disorders

Pulmonary and other complications with Dettol poisoning (Chan and Critchley). 1995;26:718 (1994 Toxicology World Congress abstract)

Restraints

Agitated delirium versus positional asphyxia (Karch and Wetli) (Letter); (Stratton) (Reply). 1995;26:760-1

Resuscitation

Lower esophageal sphincter pressure during prolonged cardiac arrest and resuscitation (Bowman et al). 1995;26:216-9 (Brief rep.)

Rhabdomyolysis

Severe rhabdomyolysis and compartment syndrome in poisoned patients (Russo et al). 1995;26:726 (1994 Toxicology World Congress abstract)

Rodenticides

Illegal use of carbamate as a rodenticide in Rio De Janeiro leads to high incidence of poisoning (Socrates Lima). 1995;26:719 (1994 Toxicology World Congress abstract)

Roundup; see Herbicides

S

Salicylates

Effect of multiple-dose activated charcoal on the clearance of high-dose intravenous aspirin in a porcine model (Johnson et al). 1995;26:569-74

Urine Trinder spot test: a rapid salicylate screen for the emergency department (King et al). 1995;26:330-3 (Brief rep.)

Scaphoid bone

Can a day 4 bone scan accurately determine the presence or absence of scaphoid fracture? (Murphy et al). 1995;26:434-8

Scapula

Significance of scapular fracture in the blunt-trauma patient (Stephens et al). 1995;26:439-42 (Brief rep.)

Screening

Screening for alcohol problems in the emergency department (Cherpitel). 1995;26:158-66 (Concepts)

Seafood

Acute kidney failure after ingestion of raw grass carp gallbladder (Fang et al). 1995;26:714 (1994 Toxicology World Congress abstract)

Outbreak of tetrodotoxin poisoning following gastropod mollusk ingestion (Yang et al). 1995;26:714 (1994 Toxicology World Congress abstract)

Pediatric seizures: value of and problems with toxicology screening (Casavant et al). 1995;26:716 (1994 Toxicology World Congress abstract)

Seizure after isolated fluoxetine overdose (Braitberg and Curry). 1995;26:234-7 (Case rep.)

Seizures caused by ingestion of composition C-4 (Harrell-Bruder and Hutchins). 1995;26:746-8 (Case rep.)

Selenium

Influence of chronic alcohol abuse on selenium status in ICU patients (Koppert et al). 1995;26:723 (1994 Toxicology World Congress abstract)

Sentinel surveillance

Emergency department sentinel surveillance for emerging infectious diseases (Moran et al). 1995;26:351-4 (Editorial)

Serotonin

Fatal serotonin syndrome with trismus (Kuisma). 1995;26:108 (Letter)

Ships

Cruise ship medicine (Draper) (Letter); (Wheeler) (Reply). 1995;26:761-2

Shock

Subarachnoid hemorrhage: an unusual presentation of shock (Gipe and McFarland). 1995;26:85-9 (Case rep.)

Skin necrosis

Warfarin sodium-induced skin necrosis (Sternberg and Pettyjohn). 1995;26:94-7 (Case rep.)

Skull fractures

Pediatric basilar skull fracture: Do children with normal neurologic findings and no intracranial injury require hospitalization? (Kadish and Schunk). 1995;26:37-41

Snake venoms

Efficacy of anticholinesterase against paralysis caused by postsynaptic neurotoxic snake venom (Sakai et al). 1995;26:712-3 (1994 Toxicology World Congress abstract)

Late administration of *Vipera palaestinae* antivenin (Bentur and Taitelman). 1995;26:712 (1994 Toxicology World Congress abstract)

Severe toxicity from crotalid envenomation after resolution of symptoms (Guisto). 1995;26:387-9 (Case rep.)

Sodium

Does a sodium-free buffer affect QRS width in experimental amitriptyline overdose? (Stone et al). 1995;26:58-64

Sodium azide

Cyanide and sodium azide intoxication (Lambert et al). 1995;26:392 (Letter)

Solvents

Simulated exposure of hospital emergency personnel to solvent vapors and respirable dust during decontamination of chemically exposed patients (Schultz et al). 1995;26:324-9

Soviet Union

Special contributions

Special contributions. 1995;26:487-503, 621-34

Spider venom

Delayed use of widow spider antivenin (Allen and Norris). 1995;26:393-4 (Letter)

Spinal artery

Anterior spinal artery infarction (Gaeta et al). 1995;26:90-2 (Case rep.)

Spinal cord diseases

Anterior spinal artery infarction (Gaeta et al). 1995;26:90-2 (Case rep.)

Spinal fractures

Avulsion fracture of the anterior superior iliac spine presenting as acute-onset meralgia paresthetica (Thanikachalam et al). 1995;26:515-7 (Case rep.)
Infant involved in a motor vehicle accident (Steele and Aks). 1995;26:508-14 (Case conf.)

Spine-boards

Pain and tissue-interface pressures during spine-board immobilization (Cordell et al). 1995;26:31-6

Staphylococcus

Stethoscopes: A potential vector of infection? (Jones et al). 1995;26:296-9 (Brief rep.)

Stethoscope

Stethoscopes: A potential vector of infection? (Jones et al). 1995;26:296-9 (Brief rep.)

Strangulation

Near-hanging caused by a toy necklace (Chin and Berns). 1995;26:522-5 (Case rep.)

Stroke; see Cerebrovascular disorders

Subarachnoid hemorrhage

Subarachnoid hemorrhage: an unusual presentation of shock (Gipe and McFarland). 1995;26:85-9 (Case rep.)

Subgaleal hematoma; see Hematoma

Submersion; see Drowning

Substance abuse

Agitated delirium versus positional asphyxia (Karch and Wetli) (Letter); (Stratton) (Reply). 1995;26:760-1

Chest pain associated with cocaine: an assessment of prevalence in suburban and urban emergency departments (Hollander et al). 1995;26:671-6

Clinical safety of lidocaine in patients with cocaine-associated myocardial infarction (Shih et al). 1995;26:702-6

Dihydroetorphine addiction (Lin et al). 1995;26:715 (1994 Toxicology World Congress abstract)

Transient cortical blindness in an infant exposed to methamphetamine (Gospe). 1995;26:380-2 (Case rep.)

Unique features of acute heroin intoxication in an epidemic area (Chan et al). 1995;26:714-5 (1994 Toxicology World Congress abstract)

Supraventricular tachycardia; see Tachycardia, supraventricular

Surfactants

Clinical experience of glyphosate-surfactant herbicide intoxication: a review of 100 cases (Chen et al). 1995;26:722 (1994 Toxicology World Congress abstract)

Sutures

Comparison of tensile strength of cyanoacrylate tissue adhesive closure of lacerations versus suture closure (Bresnahan et al). 1995;26:575-8 (Brief rep.)

T

Tachycardia, supraventricular

Effect of adenosine on the management of supraventricular tachycardia by urban paramedics (Lozano et al). 1995;26:691-6

Ventricular tachycardia may masquerade as supraventricular tachycardia in patients with preexisting bundle-branch block (Littmann and McCall). 1995;26:98-101 (Case rep.)

Tachycardia, ventricular

Ventricular tachycardia may masquerade as supraventricular tachycardia in patients with preexisting bundle-branch block (Littmann and McCall). 1995;26:98-101 (Case rep.)

Taiwan

Taiwan National Poison Center survey on butachlor/machete poisoning (Tai et al). 1995;26:720 (1994 Toxicology World Congress abstract)

Urinary methamphetamine screening in adolescent Taiwanese students: preliminary results (Tsai et al). 1995;26:715 (1994 Toxicology World Congress abstract)

Temperature

Pavement temperature and burns: streets of fire (Harrington et al). 1995;26:563-8 (Brief rep.)

Randomized double-blind controlled trial comparing room-temperature and heated lidocaine for digital nerve block (Waldbillig et al). 1995;26:677-81

Terbutaline

Terbutaline sulfate overdose (Lee). 1995;26:107-8 (Letter)

Tetradotoxin

Outbreak of tetradotoxin poisoning following gastropod mollusk ingestion (Yang et al). 1995;26:714 (1994 Toxicology World Congress abstract)

Theophylline

Anticonvulsant effects of intracerebroventricular Adenocard in theophylline-induced seizures (Shannon and Maher). 1995;26:65-8 (Brief rep.)

Anticonvulsant effects of intracerebroventricular adenosine in theophylline-induced seizures (Shannon and Maher). 1995;26:723-4 (1994 Toxicology World Congress abstract)

Toys

Near-hanging caused by a toy necklace (Chin and Berns). 1995;26:522-5 (Case rep.)

Tracheal intubation; see Intubation, intratracheal

Training; see Education

Transaminase

The temporal profile of increased transaminase levels in patients with acetaminophen-induced liver dysfunction (Singer et al). 1995;26:49-53

Transferrin

Diagnostic value of carbohydrate-deficient transferrin in the identification of patients with drug overdose at risk for alcohol-withdrawal syndrome (Koppel et al). 1995;26:723 (1994 Toxicology World Congress abstract)

Transplantation

Outcome after organ removal from poisoned, brain-dead donors (Hantson et al). 1995;26:724 (1994 Toxicology World Congress abstract)

Trauma; see Wounds and injuries

Triage

Comparison of ambulance dispatch protocols for nontraumatic abdominal pain (Lammers et al). 1995;26:579-89

Identification and triage of nonemergency patients from the ED (Afialo) (Letter); (Wood) (Letter); (Derlet and Kinser) (Reply). 1995;26:242-4

Limitations of the prehospital index in identifying patients in need of a major trauma center (Plant et al). 1995;26:133-7
Paramedic injury severity perception can aid trauma triage (Simmons et al). 1995;26:461-8

Tricyclic antidepressants; see Antidepressants, tricyclic

Trinder spot test

Urine Trinder spot test: a rapid salicylate screen for the emergency department (King et al). 1995;26:330-3 (Brief rep.)

Trismus

Fatal serotonin syndrome with trismus (Kuisma). 1995;26:108 (Letter)

Tuberculosis

Delayed recognition and infection control for tuberculosis patients in the emergency department (Moran et al). 1995;26:290-5

Public health and clinical toxicology: analysis of the geographic distribution of tuberculosis and pyridoxine (McGuigan and Yamada). 1995;26:719 (1994 Toxicology World Congress abstract)

Turkey

Emergency medical care in Turkey: current status and future direction (Bresnahan and Fowler). 1995;26:357-60 (Concepts)

U

Ulcer

Subgaleal hematoma with delayed proptosis and corneal ulceration (Pomeranz et al). 1995;26:752-4 (Case rep.)

United States Food and Drug Administration; see Food and Drug Administration

Upper extremity; see Arm

Urgent care clinics

Urgent care clinics (Broome). 1995;26:528 (Letter)

Urinary tract infection

More on babesiosis and immunodeficiency (Witt) (Letter); (Kurtz et al) (Reply). 1995;26:239-40

Urine

Urinary methamphetamine screening in adolescent Taiwanese students: preliminary results (Tsai et al). 1995;26:715 (1994 Toxicology World Congress abstract)

Urine Trinder spot test: a rapid salicylate screen for the emergency department (King et al). 1995;26:330-3 (Brief rep.)

Urography

Emergency intravenous pyelography in the setting of possible renal colic: Is it indicated? (Wrenn). 1995;26:304-7 (Brief rep.)

Urticaria

Outpatient management of acute urticaria: the role of prednisone (Pollack and Romano). 1995;26:547-51

Uterus

Delayed presentation of uterine perforation (Leibner). 1995;26:643-6 (Case rep.)

Utstein style

Recommended guidelines for uniform reporting of pediatric advanced life support: the pediatric Utstein style (Zaritsky et al). 1995;26:487-503

V

Vaccination

Emergency department vaccination of preschool-age children during a measles outbreak (Schlenker et al). 1995;26:320-3

Valine

Reversal by valine of intramyelonic vacuolation and motor axonopathy produced by cycloleucine (Lee and Duchon). 1995;26:726-7 (1994 Toxicology World Congress abstract)

Venoms

Delayed use of widow spider antivenin (Allen and Norris). 1995;26:393-4 (Letter)

Efficacy of anticholinesterase against paralysis caused by postsynaptic neurotoxic snake venom (Sakai et al). 1995;26:712-3 (1994 Toxicology World Congress abstract)

Late administration of *Vipera palaestinae* antivenin (Bentur and Taitelman). 1995;26:712 (1994 Toxicology World Congress abstract)

Severe toxicity from crotalid envenomation after resolution of symptoms (Guisto). 1995;26:387-9 (Case rep.)

Ventilatory support

The need for ventilatory support during bystander CPR (Berg et al). 1995;26:342-50

Ventricular fibrillation

Ventricular fibrillation, automatic external defibrillators, and the United States Food and Drug Administration: confrontation without comprehension (Cummins et al). 1995;26:621-31 (Concepts)

Ventricular fibrillation in pediatric cardiac arrest (Quan and Mogayzel). 1995;26:658-9 (Letter)
